Cut along here and stick on fridge ... with your fridge magnet from L&S!

News from L&S Framing & Conservation Winter 2008

The move from the big shed in Seymour Street to the pleasant surrounds of our home in O'Connell has been a great decision. I have had the opportunity to speak with many of you since February, and if you have not received a fridge magnet please let me know. It has been great to see so many customers at the new premises – they have discovered it's only 15 minutes to L&S, and a good excuse to visit the well-known pub and the terrific O'Connell Café!

If you have not seen the new premises, please call in anytime. It's a good idea to ring first to make sure I'm here. I'm regularly in Bathurst picking up supplies or dropping off finished framing jobs. I still take all credit cards ... and remember ...

I will beat any written quote for the same frame by 10%.

I am continuing to bring interesting and inspiring artwork to the public. Duntryleague Guesthouse at Orange Golf Club has joined with L&S Gallery to display some special paintings from local artists, which can be seen throughout May and June. Above is your invitation to a brilliantly colourful exhibition by Elie Shalala. Please come to the opening on Friday 30th May and support this Bathurst artist who has shown previously at Warpstanza and Magenta Galleries.

I hope to see you soon,

Wendy
